F. An estimate of the total annual implementation and compliance costs that are reasonably expected to be incurred by or passed along to businesses, local governments, or individuals. *Note: Do not account for any actual or estimated cost savings that may be realized. Implementation and compliance costs determined shall be those additional costs reasonably expected to be incurred and shall be separately identified for the affected businesses, local governmental units, and individuals.*

Costs to Affected Businesses – \$0

Costs to Local Governmental Units – \$0

Costs to Individuals – \$0

**Total Annual Costs – \$0**

(sum of above amounts)

Give a detailed statement of the data and methodology used in estimating the above cost estimate.

K.A.R. 65-5-2: The updated exam application requirements have largely been implemented. Applicants have been paying the fee for the criminal background check since K.S.A. 65-1505 was revised in 2012. National board scores are sent free of charge to the Board upon confirmation of graduation to NBEO by the institution and successful completion of all parts.

K.A.R. 65-8-4: The regulation revises prescription content using current technology and terminology. The Board sent out a survey to optometrists inquiring about any expenses related to this regulatory update. Respondents indicated that their Electronic Health Records (EHR) systems would automatically update at no cost. One respondent mentioned potential staff time but couldn't determine a specific dollar amount. Another one stated: 'It would not cost us anything, our current EHR has the requirements in its current form'. Another one said that it would not cost anything to update other than maybe 30 minutes of his time to get into the settings and figure out how to change things. The Board emailed all 743 current licensees. Only 8 responded.
